

The End of Computer Headaches

Email solutions for your business

No More Computer Headaches!

Technology makes it possible.

Our service makes it simple.

Always on Email for your Business

In these times of Blackberry, Windows Mobile, and iPhone devices you cannot afford to be out of communication, but how can you stay in communication and still stay in your budget? You could spend thousands of dollars on Microsoft Exchange, Blackberry Enterprise Server, expensive Spam Filters, virus filters, redundant internet connections, and experts to keep them up and running, or you can relax and let LAN Doctors, Inc take care of all of it all for you at a fraction of the cost.

Stay Connected...

Communication is the lifeblood of business. For years small businesses have been stuck having to choose between performance and budget. On the one hand you could get the best in security, connectivity, and service, but at a high cost. On the other hand, you could get free or cheap email services, but with no guarantees of service or security. Add to both of these different prospects your concerns about data storage, replication, and security, and now you really have a problem. Now, finally, there is another option: LAN Doctors, Inc Communications Assurance.

COMMUNICATIONS
ASSURANCE

Communications Assurance Plan:

Your always on email service for guaranteed

local and mobile communications

How do we do it?

LAN Doctors, Inc is a firm believer of using only the best possible systems, services, and software for all of its needs, and our high standards mean that we can offer the best to our customers. By investing in our own infrastructure, and keeping on the cutting edge of technology, we can assure our customers that they will always be at the leading edge of the technology frontier. From our high speed, redundant, internet connections to our top of the line Spam filtering solutions, LAN Doctors, Inc provides the best solutions with the highest levels of support at a fraction of the cost of hosting it yourself!

HOSTED EMAIL FEATURES

- ◆ **Access your email anywhere in the world.** Use Microsoft Outlook, Eurdora, Thunderbird, or our Communications Assurance Webmail on your laptop, or use your Windows Mobile, iPhone, or Blackberry devices to stay in contact with your office through email.
- ◆ **Coordinate calendars quickly and easily.** Easy to use calendar systems help you share your schedule, view the availability of your employees, and let you determine who can access your calendar.
- ◆ **Share contacts among your employees.** Create, manage, import, export, and share contacts centrally to manage customer, vendor, and employee relationships more efficiently.
- ◆ **Ensure continuity of your business communications.** Communications Assurance is built on a stable platform with redundant internet connections, SPAM filters, and fully replicated databases, so even in the event of a massive disaster, you can rest assured that your communications will not be disrupted.

Is Communications Assurance right for you?

Ask yourself these questions

and judge for yourself

◆ **Are you concerned about the prospect of missing an email?** With Communications Assurance you have backups of all email, calendars, and contacts safe and secure at our state of the art data center, as well as at our off-site live backup facility.

◆ **Worried about the cost of inefficient communications?** Whether it is communicating with your employees, your customers, or your vendors, being able to get the message across in a timely manner is sometimes more important than the message itself.

◆ **Are the security of your confidential communications and files important to you?** Sending important and confidential information is risky, and, in this age of rampant cybercrime, you need to assure your customers that their data will be secure, as will their messages.

◆ **Is your email sending the right message to your customers?** We can create and host your domain so your email can be personalized to your business, not to a generic provider name.

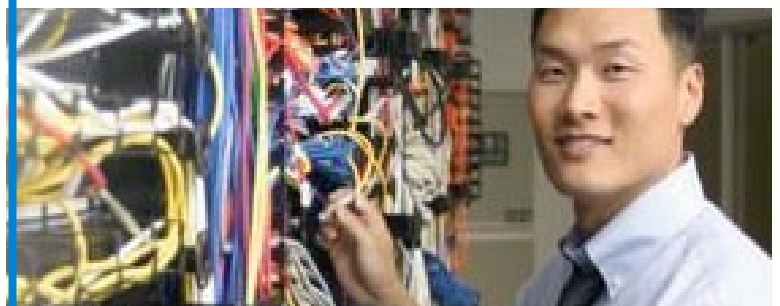

◆ **Tired of Spam clogging up your inbox?**

Communications Assurance relies on the proven technology of Barracuda Spam Filters to keep annoying messages out of your inbox.

◆ **Been burned by hosted solutions before?** LAN

Doctors, Inc is so committed to your peace of mind that we refuse to bind you into any long term contract. If you are not satisfied, you can cancel any time and we will help you migrate to your new provider at no additional cost

◆ **You will gain incredible peace of mind?** As a business owner you have enough to worry about, so why not let us handle the headaches, stress, and worry for you.

100% Satisfaction Guaranteed
